Depends on what's in the mixture spilled. We are looking into it. Thanks!

Arlin,

Is this an EPCRA 311/312 matter?

Hi Aquanetta and Andy,

See media inquiry below. Not sure if both of you would be helpful in getting info in response to this inquiry. One question sounds like an EPCRA matter. Let me know. Thanks. – Terri

Hello Beth,

My colleagues in EPA Region 3 will be able to help you. They are copied on the email.

Regards,

Cathy Milbourn

Subject: Chemical Spill near Delaware River Pennsylvania

Hello Cathy,

I am a reporter at The Epoch Times.

I would like to look any any inspection reports for the Trinseo PLC, chemical plant in Bristol, Pennsylvania, which spilled a "Latex emulsion product" into a creek feeding the Delaware River on Friday.

I want to see what chemicals they keep in their building.

I would like to know the specific names of the chemicals (I believe it is a mixture) that was spilled.

ECHO has a problem with Pennsylvania data so I can't find the company there.

Can you help me fill in any blanks?

Thanks,

--
